

Designing secure, mission-critical environments with precision.

FIRM CAPABILITIES

COMPANY OVERVIEW:

EDT-THA Architecture is a SBA-certified Woman-Owned Small Business (WOSB) delivering architectural design and program management solutions for secure, occupied, and mission-critical facilities. Founded in 2005 in Huntsville, Alabama, we specialize in major renovations, complex phasing, and high-security environments, ensuring continuity of operations during construction. Our integrated approach bridges design intent and construction execution; reducing risk, compressing schedules, and improving cost certainty. With 94% repeat business, we are a trusted partner across federal, aviation, municipal, and private sectors—both CONUS and OCONUS.

CORE COMPETENCIES:

- AEC Program Management
- Architecture & Interior Design
- Strategic Teaming & Delivery Integration
- Major Renovations & Facility Modernization
- Complex Phasing in Occupied Environments
- New Construction on project sizes - 200 to 200k+ SF
- Engineering Coordination & Management
- Design-Build | Design-Bid-Build | CMAR | Fast-Track

DIFFERENTIATORS:

- Certified SCIF Design Expertise for secure CONUS/OCONUS federal facilities, supporting large defense contractors
- Proven success in occupied, mission-critical renovations
- 94% repeat client rate across federal and aviation sectors
- Design-build expertise that reduces change orders and project risk
- Early-stage cost alignment and value engineering integration
- Certified Smart Cities Practitioner delivering future-ready solutions
- Single-point-of-contact program management for seamless execution
